Dear Sir or Madam,

I am in receipt of a post card from Duke Energy, it seems they want another increase. My wife and I are Senior Citizens and my wife continues to work at the age of almost 70. I am retired at the age of 76 years old and receive a small taxable pension and taxable Social Security.

Our electric bills are astronomical now and I am sure that most seniors feel the same way.

I would just like to say that at a time like this the last thing we need is an increase in our bills. I tried everything to make our home energy sufficient. I had a free survey done by Duke Energy and the only thing they came up with was a small area of the front and back door need weather stripping (this because the cat keeps clawing it) I replaced the insulation on both doors the next day and our bills are still astronomical.

I implore you to not allow an increase at this time. I would attend the one of the meetings except we will not be in South Carolina on those dates.

Thank you for your concern and I hope this letter does some good.

Respectfully

Roy L. Teverbaugh
